the perfect time is now

Dear Nomad,

We are a Community who firmly believes travel, cultural exchange, and experience provide wisdom and understanding of life. We have hosted from over 20 countries in the past 15 years and want to wish you a warm welcome. Come journey with us!

We connect companies & individuals for travel, learning & research opportunities. We open our homes and businesses to those skilled in fine arts, linguistics, culinary arts, movement, dance, and more. We attract research scholars, professors, and skilled specialists who desire to impact the world.

We specialize in bridging through our international hub where we welcome you to become a part of a new multicultural movement. We are partnered with many exciting businesses in Silicon Valley along with movement studios around the world. Upon arrival, you will live & learn in our Cottage Location in Marietta, Ohio. It is a wonderful small American community with an international presence. We have restaurants featuring sushi, tapas, middle eastern, chinese, and italian to name just a few. You will feel at home with us when you arrive.

If it is your dream to blend mind, body, and spirit and share your philosophy of Fine Arts to develop Virtual Reality, Augmented Learning Environments, Chakra enlightenment, and in-person classrooms on these exciting subjects, then Tao Lifestyle is for you. We learn from each other and integrate the ancient wisdom found in cultures from around the world. One day you will learn from Buddha, the next from Ghandi, and the following from Christ. We see wisdom in all the ancient teachers and are open to learning about your family & country, too. Our students seek spiritual guidance from us and will be curious to understand your perspective on the world and taste cuisines from your home.

Our community does research on these topics and commits our findings to help discover cancer treatments, answers to sacred geometry, and branding immersion to engage consumers.

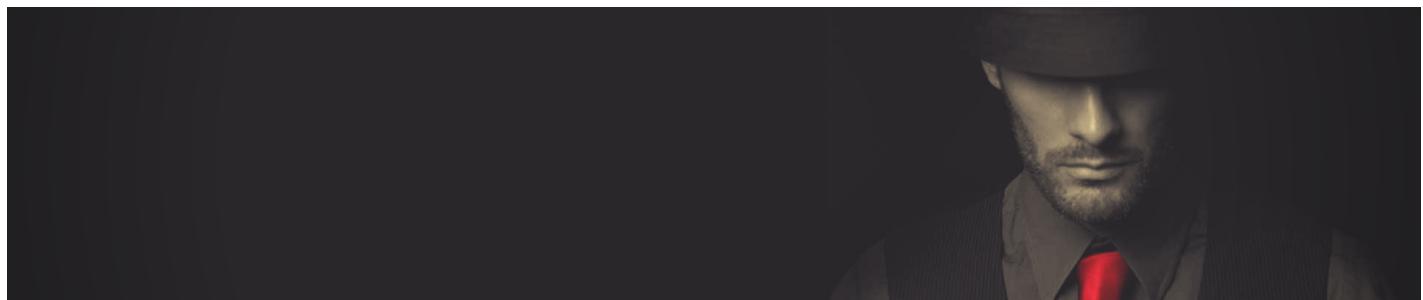

Sincerely,

Matthew Hackney
